Synopsis :

Amazon.com Review This is essential reading for anyone interested in directing or acting. Judith Weston's brilliance is to recognize that directors, actors, writers, and technicians are involved in a process that is at essence a collaboration. In order for them to have the best shot at creating something true and meaningful, they must share a language and a method of exchange that fosters creative cooperation. Weston rightly sees the director as the central figure in inspiring the energy of a production's harmony. She advises the prospective director on every aspect of a stage or film production, showing how the director can draw the best performances possible from actors. Read more Review The focus on creating memorable performances for film and television provides explicit acting advice and examples rather than the usual generalities. From the initial reading of a script to casting and rehearsing techniques and developing or understanding relationships between actors and directors, this is packed with practical considerations. -- Midwest Book Review Read more See all Editorial Reviews
